Marcus Min
Senior Director of US Business Operations
PPI America, Inc.
marcus@ipvcpipe.com

Dear Mr. Min,

I would like to confirm that PPI America, Inc. is certified by NSF to FM Approval Standard FM 1612. This link confirms the specifics of the NSF Listing [PPI NSF Listing FM1612](#).

NSF listed and labelled products are certified and approved by building code and fire code officials using NFPA 24 Standards for the Installation of Private Fire Service Mains and Their Appurtenances. In addition, NSF is accredited for certification of fire protection equipment and plastic pipe and fittings by the ANSI National Accreditation Board and Standards Council of Canada. In addition, NSF is a Nationally Accredited Testing Laboratory (NRTL) as designated by the Occupational Health and Safety Administration (OSHA) for fire service main to UL 1285.

Attached is a frequently asked questions about NSF fire main listings, and NSF's Certification Guide for FM Approval standards.

If you or your customers have any questions, please contact me directly.

Regards,

Jeremy Brown
